Facing a disability and applying (and very often, fighting) for Social Security benefits is a day-by-day process. You are most likely spending your time and energy by focusing on doctor's appointments, paperwork, and meeting the basic needs for yourself and your family. And you are probably not giving much thought to what happens after you are approved to begin receiving disability benefits. But there is a light at the end of the tunnel, especially when you have a team like ours fighting for you every day. So you may want to devote some time to considering how you would want to receive your benefits.

When you are approved for your Social Security Disability benefits, you'll need to receive your benefits electronically. Social Security provides two options for electronic benefits: Direct Deposit or the Direct Express® card. To help you decide which method may be right for you, the Jan Dils team has dedicated our latest Social Security Disability newsletter to these two methods of payment, and included an outline with basic information for each one.

Of course, if you have any questions about payment methods or

## RECEIVING YOUR SOCIAL SECURITY DISABILITY BENEFITS VIA DIRECT EXPRESS® CARD

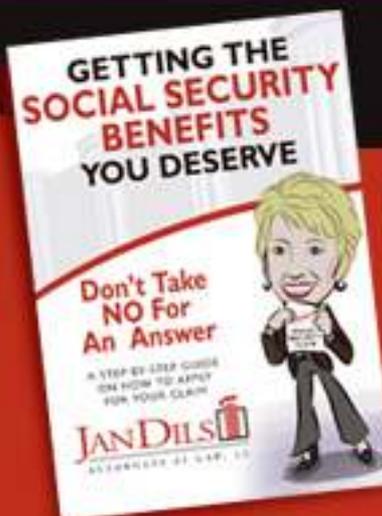

# DIRECT EXPRESS

The Direct Express® card is a debit card you can use to access your payments. And you don't need a bank account. With the Direct Express® card program, Social Security deposits your federal payment directly into your card account. Your monthly funds will be available on your payment day — on time, every time. You can use the card to make purchases, pay bills or get cash at thousands of locations. And most transactions are free.

The Direct Express® card is both safer and more convenient than paper checks. Anyone receiving Social Security or Supplemental Security Income payments can enroll even if they don't have a bank

account. You no longer have to wait for the mail or worry about lost or stolen checks.

**The Direct Express® card is simple and easy to use. You can use it to:**

- **Make purchases.** Present your card when paying at any location that accepts MasterCard®. The money is automatically deducted from your account.
- **Get cash.** Get cash at ATMs, banks, or credit unions. Or, get cash back with purchases at many retail locations.

Direct deposit automatically deposits your benefits payment into your checking account. It is a simple, safe and secure way to get your benefits. If you would like Social Security to send your payment to a bank or credit union account, have the following information ready when you apply:

- Your financial institution's routing transit number;
- Account type (checking or savings); and
- Account number.

Signing up is simple—you can contact your bank to help you sign up for direct deposit, or sign up through Social Security.

No matter which method you choose—Direct Deposit or Direct Express® card—receiving your payments electronically is safer, easier, and more convenient. You won't have to wait for the mail to arrive, there's no risk of a lost or stolen check, and you won't have to make a trip to cash or deposit a check.
